DETAILED ACTION

Claims 1-27 are currently pending in the instant application. Claims 1 and 16-18 appear allowable over the prior art of record. Claims 2, 3 and 7 are rejected. Claims 4, 5, 15, 19 and 27 are objected. Claims 6, 8-14 and 20-26 are withdrawn from consideration as being for non-elected subject matter.

Terminal Disclaimer

The terminal disclaimer filed on 5 April 2007 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Patent No. 6,699,863 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Response to Amendment and Arguments

Applicant's amendment filed 26 June 2008 and arguments filed 5 April 2007 have been fully considered and entered into the application. Applicants amendment and arguments have overcome the 35 USC 112 2nd paragraph rejections. Additionally, the terminal disclaimer filed has overcome the obviousness type double patenting rejection. While applicant states that the amendment to the claims deletes non-elected subject matter, it is noted that claims 4, 5 and newly added claim 27 still contain non-elected subject matter when R3 and R4 are other than forming together with the nitrogen atom a piperidiny ring.

Claim Objections

Claims 4, 5 and 15 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim.

Art Unit: 1626

Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Specifically, claim 1 limits R3 and R4 to form a piperidinyl ring, however, dependent claim 4 has R4 and R4 together with the nitrogen atom, forming a 5 or 6 member ring and claim 5 has R3 and R4 also able to form a morpholinyl ring. Claim 15 limits claim 3 by stating that the compound is formula III, however, claim 3 and claim 1 from which it depends has already limited the formula to formula III.

Claim 19 is objected to because of the following informalities: Specifically, claim 19 does not end in a period. Appropriate correction is required.

Claims 15 and 19 are objected to as being dependent upon a rejected base claim.

Claims 4, 5 and 27 are objected to as containing non-elected subject matter. Specifically, claims 4, 5 and 27 have R3 and R4 as other than piperidinyl.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2, 3 and 7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Specifically claims 2 and 7 are drawn to products wherein the definition of R7 includes "(lower) alkyl-substituted derivatives". The term "derivatives" found in the claims is defined as a compound, usually organic obtained from another compound by a simple chemical process or a organic compound

containing a structural radical similar to that from which it is derived (Hackh's chemical dictionary, 1972). Therefore, the term "derivatives" found in the claims renders the claims indefinite because it is unclear what compounds are being claimed, i.e. what similar radical is found in the derivative and encompassed by the instant claims. It is suggested to overcome this rejection, applicant amend the claims to delete all instances of the term "derivative(s)" from the claims.
